

Pulltarps® Systems

Famous "No BS" Double Guarantee

Super Strong Radiused Housing

The Super Shield's radiused steel housing is so strong it can actually hold this full size diesel pickup truck without any bending or binding of the housing. The system still works with the weight of the truck on the housing. This test is guaranteed to crush any competitors tarp system.

Super Shield

Ultimate Aluminum

Ratchet Assembly

Another exclusive feature of Super Shields and Ultimate Aluminum systems are their External Spring Tensioning capabilities. This ratchet mechanism makes adjusting the spring fast and easy by using a 3/4" wrench.

Part # 501-0630

Super Shield Pulltarp® System

Part # 107-0215

This is the strongest, most durable tarp system available in the industry. Fully welded 12 gauge steel construction offers the best protection from falling debris. Designed for applications up to 18'. The external ratcheting spring adjustment allows for easy spring tensioning in the field. All moving parts are guaranteed for as long as you own it. Options include Load Climber, Arm Roller (used with arm system upgrade), Manual Arms, and Automatic Arms.

Tarp Priced Separately

Stock Widths:
80", 84", 87", 89", 93", 96", 100"
Custom Widths Are Available

- ▶ Powder coated steel housing resists corrosion.
- ▶ Fully welded construction for superior strength.
- ▶ The housing is radiused for added strength.
- ▶ The shape of the housing allows material to fall into the bed when loads are dropped on it.
- ▶ Housing has a vertical back that mounts flush with cab shield to keep material from piling up.
- ▶ Exclusive External Ratcheting Spring Adjustment.
- ▶ Steel or Aluminum Mounting Brackets
- ▶ Holds up to 18' of tarp.
- ▶ Exclusive mounting bars make installation, maintenance, and removal easy.
